Full-Stack .NET Developer | Angular | Azure | Cybersecurity | Government Project Experience

Software Engineer with expertise in building scalable enterprise applications using .NET Core, ASP.NET MVC, Angular, and SQL Server. Skilled in Web API development, Microservices architecture, API integration, and JWT authentication with a strong focus on secure system design. Proficient in leveraging Microsoft Azure for cloud deployments, automation, and compliance-driven reliability. Demonstrated success in government and enterprise projects, combining technical expertise with performance optimization and security best practices.

💡 Skills

- Programming & Frameworks: C#, .NET Core, ASP.NET MVC, Entity Framework, Java
- Frontend: Angular, JavaScript, HTML, CSS, UI Implementation
- API & Backend Development: REST APIs, Web Services, JSON, Backend Logic Implementation, JWT
- Databases: SQL Server, MySQL, Stored Procedures
- Cloud & Cybersecurity: Azure, Penetration Testing, Vulnerability Assessment, Kali Linux, Burp Suite, Nmap, Wireshark
- Tools & Platforms: Visual Studio, Git, Bitbucket, Microsoft Dynamics 365
- Core Competencies: Problem-Solving, Team Collaboration, Communication, Analytical Skills
- Version Control: Git, Bitbucket, GitHub

📁 Work Experience

Software Engineer

Tech Mahindra, Hyderabad | June 2025 - January 2026

- Improved system performance by 15% through development and optimization of .NET Core modules used by 200+ internal users.
- Designed and implemented Microservices architecture with Clean Architecture principles, ensuring scalable, modular, and maintainable enterprise systems.
- Developed secure Web APIs with JWT authentication, enabling seamless integration across multiple modules.
- Streamlined deployments and optimized release cycles by leveraging Azure cloud services and automation, while reducing defect rates by 20% through proactive debugging and testing.
- Delivered 20+ client demos, ensured compliance with government standards, and strengthened technical alignment with business goals.

Associate Software Engineer

Tech Mahindra, Hyderabad | Dec 2023 - June 2025

- Contributed to enterprise module development using .NET Core and ASP.NET MVC, supporting scalable application delivery.
- Reduced release defects by 12% through collaboration in manual testing and quality assurance.
- Improved team efficiency by assisting in requirement analysis and delivering module presentations.
- Created clear technical and business documentation, improving workflow efficiency

Web Application Assessment & Penetration Testing Intern

Supraja Technologies, Vijayawada, India | Aug 2022 - Sep 2022

- Identified 30+ vulnerabilities through penetration testing of web applications, strengthening system security.
- Recommended and implemented remediation strategies in collaboration with developers, improving secure coding practices.
- Applied cybersecurity tools to conduct vulnerability assessments and network analysis.
- Engaged in cybersecurity workshops and threat discussions, gaining practical exposure to real-world attack scenarios

ACADEMIC PROJECTS

Stock Price Prediction Using Machine Learning

- Developed a predictive ML pipeline using Python, pandas, and scikit-learn, applying time-series analysis for stock price forecasting.
- Performed data preprocessing, feature engineering, model training, and evaluation.

JobScope Profile – Web Application

- Built a Java-based web application with user registration, login, and profile management, deployed on Tomcat Server.
- Designed and implemented UI components with HTML/CSS, ensuring smooth performance and user experience.
- Collaborated with team members to integrate backend and frontend features effectively.

Certifications & Achievements

- Java Programming Course Certification– Wipro.
- Artificial Intelligence Foundations – Wipro.
- Data Science – Coursera.
- Cybersecurity – Supraja Technologies
- AI White Belt Certification – Tech Mahindra.
- Awarded Certificate of Excellence for outstanding participation in CyberSecurity Workshop.
- Recognized for strong debugging and problem-solving skills during .NET development projects.
- Delivered 20+ client demos and technical presentations at Tech Mahindra, strengthening client engagement.

Languages

- English - Professional Proficiency
- Telugu, Hindi - Native Proficiency.

Education

B.Tech in Computer Science and Engineering

- Geethanjali College of Engineering and Technology, Hyderabad — May 2023 Graduated with 74%
